Day 0 = contract finalisation. Link prefix: track.brightlinetech.example

How tracking works

1. Within 2 hours of every dispatch, the receiving contact at the office gets the tracking link by email and SMS, with carrier, vehicle number and expected arrival.
2. The link shows live status until delivery, then the signed challan and serial numbers.
3. If arrival slips by more than 24 hours, our account manager alerts AerChain the same day with a new date.
4. Each warehouse keeps 3% spare units, so damaged or short units are replaced locally.

5. After sales support and escalation

One ticket line covers all 13 offices. A ticket that is not solved moves up a level by itself when the time below runs out.

Level	Who	Replies within
1	Support desk: 1800 267 5521 (toll free), support@brightlinetech.example	4 business hours
2	City service lead of the affected office	1 business day
3	Account manager: Arjun Rao, +91 98450 77310	2 business days
4	Director: Meera Iyer, meera.iyer@brightlinetech.example	3 business days

AerChain also gets a monthly report of open and closed tickets, office wise.

6. Acceptance of terms

We accept all the conditions of the RFQ, including the one time 2% penalty for delay, forfeiture of the contract beyond 60 days, and the partial delivery terms (questions 7, 8 and 9).

For smooth working we note three points:

(a) Day 0 of every timeline is the date AerChain issues the purchase order.

(b) Delay caused by AerChain (site not ready, receiver absent, change in quantity) or by events beyond our control extends the dates.

(c) The 2% penalty applies to the value of the delayed items only.

We have stock confirmed for all 325 MacBook Pro M3 Max units. Prices are valid for 30 days.

Yours faithfully,

Meera Iyer
